EDUCATION

Delhi Technological University (Formerly DCE) <i>B.Tech in Engineering Physics (Minor in Computer Science)</i>	Dec. 2021 – Jun. 2025 CGPA : 8.8 (Dept. Rank 8)
Deen Bandhu Public School, Ghevra, Delhi <i>Senior Secondary (Class XII), PCM</i>	2020
DL DAV Model School, Shalimar Bagh, Delhi <i>Secondary (Class X), PCM</i>	2018

EXPERIENCE

Mobile Application Developer (Full Time)  <i>BrokerApp</i>	Nov 2025 – Present <i>BrokerApp</i>  
- Engineered and maintained React Native cross-platform app used by 10K+ users on iOS and Android. - Upgraded the application from React Native 0.77.4 to 0.85.0 while resolving build compatibility issues - Streamlined the main feed and infinite scrolling using rendering and pagination strategies, reducing FPS drops and maintaining consistent 60 FPS performance, validated with Flipper and React Native Performance Monitor - Automated CI/CD pipelines, reducing the release process from 5 manual steps to a single command for build generation, release notes, and deployments through Firebase App Distribution and TestFlight - Enabled Razorpay payment gateway support, handling 30+ monthly payments with a 90% success rate - Introduced local LLM-powered features to generate AI-assisted titles and descriptions for user-generated posts	
React Native Developer (Intern + Full Time)  <i>Ambak</i>	Jan 2025 – Nov 2025 <i>Ambak Yoddha</i>  <i>Ambak Saathi</i>  
- Delivered and maintained 2 production mobile applications in collaboration with backend and product teams - Migrated applications from React Native Community CLI to Expo SDK 52, leveraging Expo libraries - Set up Fastlane CI/CD pipelines and added Firebase Crashlytics for monitoring and debugging	
Junior Software Developer (Intern)  <i>Growth Marketers</i>	Jun 2024 – Jul 2024 <i>On-Site</i>
- Created and connected multiple APIs for the CRM mobile app and admin portal - Coordinated shared services using a centralized Git submodule across client, admin, and backend repositories	

PROJECTS

 Metro Connect <i>Expo, React Native, BFS, Expo Location</i>	MetroConnect 
- Built an interactive Delhi Metro route planner with real-time route suggestions across 250+ stations - Designed and developed intuitive mobile UI/UX for source and destination station selection with route optimization options (least stations / least interchanges) - Implemented metro route optimization using graph traversal with Breadth-First Search (BFS)	

TECHNICAL SKILLS

Programming Languages	C, C++, JavaScript, TypeScript
Frameworks & Libraries	React Native, ReactJS, NodeJS, Express, React Native Reanimated
Tools & Technologies	Expo, Firebase (App Distribution, Crashlytics), Charles Proxy, FB Flipper, Postman
AI Tools	Cursor, Warp
Databases	SQL, PostgreSQL, MongoDB, SQL Server
APIs	REST, Google OAuth, Socket.io

ACADEMIC ACHIEVEMENTS

- Secured **Department Rank 1** in 3rd year with GPA of **9.74** (5th semester) and **9.33** (6th semester)
- Reached **LeetCode Contest Rating 1572**, ranking among the **Top 27%**
- Completed **400+** Data Structures and Algorithms problems across multiple coding platforms
- Achieved the highest score possible at **Hacker Blocks**
